

In-Flight Validation of MODIS and ASTER Products - Update

Simon J. Hook

Fred Prata

Geoff Schladow

Test Sites

- L. Tahoe, CA USA
- Thangoo, WA Australia
- Amburla, NT Australia
- Uardry NSW Australia

Instrumentation

- Surface contact temperature
 - Surface radiative temperature
 - Longwave radiation up and down*
 - Shortwave radiation up and down*
 - Aerosols
 - Total Water Vapor
- * Australian sites only.

Status

- Amburla - operational
- Uardry - operational
- L. Tahoe - semi-operational
- Broome - semi-operational

Operational = full data suite continuously acquired.

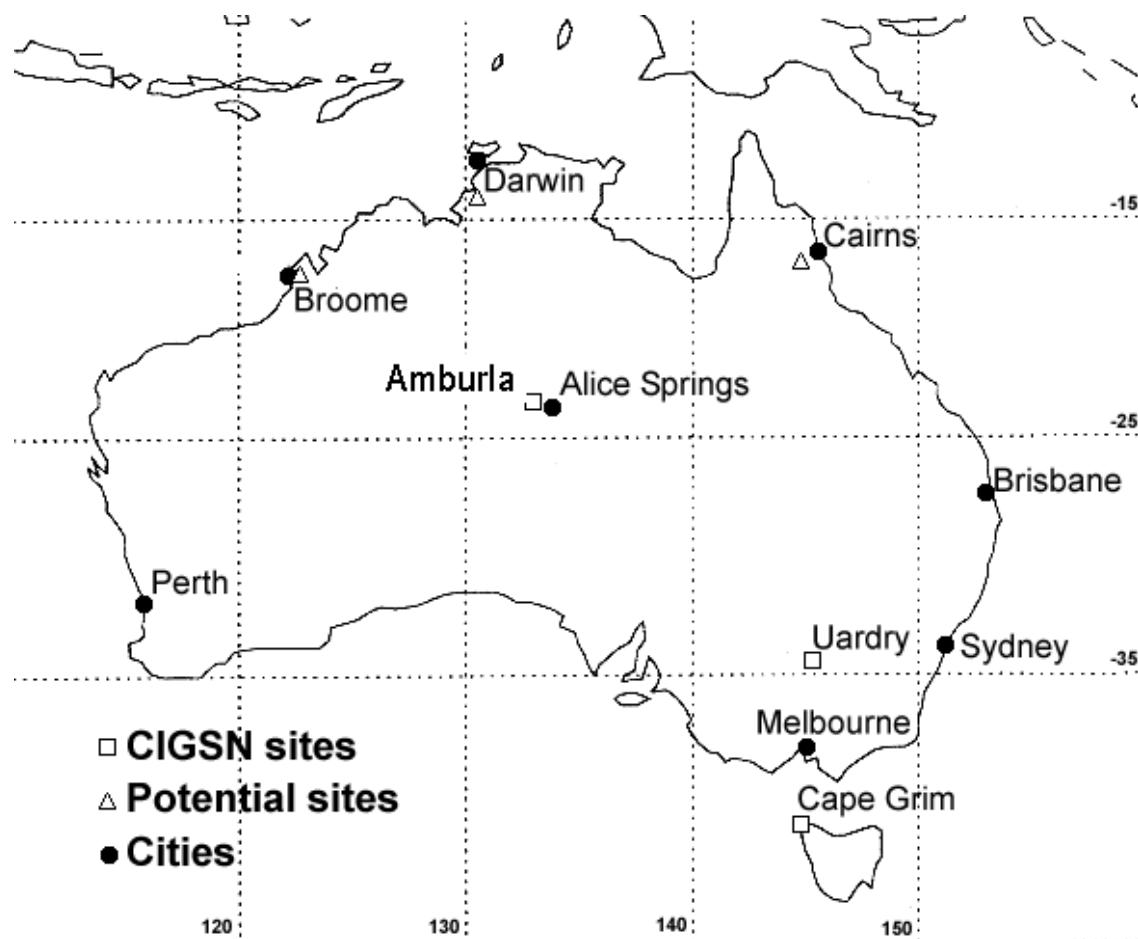

Semi-Operational = partial data suite acquired, should be fully operational by end May.
